

Jonathan Kyle Hobson

UX Research & Design | Clear Workflows | Accessible Learning

Mesa, Arizona | JonathanKyleHobson@gmail.com

linkedin.com/in/jonathankylehobson | [Nava design and research portfolio](#)

Summary

UX designer and researcher who turns complex workflows into clear interface choices and research questions. Current FactorLab work includes SmartTagIt web and mobile flows, feedback layouts and conversational recovery states. Bring research synthesis, Figma prototypes and accessible learning experience to future design and research opportunities at Nava.

Skills

Web and mobile interaction design · Figma prototypes · Product states and recovery flows · Information hierarchy · Interface patterns and color roles · Engineering annotations · Heuristic evaluation · Research synthesis · Accessibility · Conversational AI design

Product design and research

FactorLab

UX Designer & Researcher (Contract) | Oct 2025–Present

- Design SmartTagIt web and mobile workflows, translating product questions into Figma alternatives, interaction states and annotated engineering guidance.
- Developed Flint conversation flows covering question suggestions, waiting, answer actions, interrupted responses and saved questions. Distinguished recovery behavior for a stopped answer and a lost connection.
- Explored About Me feedback layouts, widget families and content densities. Connected summaries to supporting evidence and next actions while keeping comparison language neutral.
- For the open-issue workflow, explored read-to-edit, direct-edit and inline expansion patterns, then narrowed the next iteration around scope clarity and implementation effort.

Oak AI

Lead UX Researcher | 2023–2025

- Connected a desktop usability evaluation to navigation, visual hierarchy and login-feedback recommendations developed with the lead UX designer.
- Paired identified problems with visual alternatives and shared color-role guidance so the team could review specific changes and their rationale.

Jonathan Kyle Hobson

UX Research & Design | AI and learning experience

Research and product judgment

KeepMake

UX Research Consultant | Jun 2023–Present

- Use research review, prototypes and participatory workshops to clarify product questions and align stakeholders on scope.
- Helped distinguish a usability study from an activation experiment and proposed a manageable learning plan for a volunteer team.

Oppia Foundation

UX Research Lead (Volunteer) | Involved since 2025

- Review learning-product interactions and coordinate research work. In a recent exit-dialog review, asked engineering to clarify autosave and save-on-exit behavior before finalizing the interface guidance.

Arizona State University - Learning Innovations

AI Analyst | Feb 2024–Oct 2024

- Designed and evaluated voice and chat flows. Proposed a staged prompt workflow with mentor review before personalized guidance reached the learner.

Arizona State University - Knowledge Enterprise

Instructional Designer | Apr 2022–Oct 2024

- Developed digital learning materials and workshops with accessibility improvements and AI-supported content workflows.

Education

MS User Experience - UX Research, Arizona State University, May 2024

BS Technical Communication - User Experience, Arizona State University, May 2023

BS Electronic Media, Northern Arizona University, May 2014
