Portfolio, case studies and application materials: jonathankhobson.github.io/application-portfolios/eliza-ai-deployment

Summary

UX researcher and instructional designer who builds local AI tools and turns unclear tasks into concrete examples, requirements and guidance. Created and released Prompt Compass, an MCP-based prompt analysis tool, and taught a published Coursera AI Guided Project. Client-facing product research and earlier ASU technology work inform how I explain decisions, investigate constraints and prepare work for technical collaborators.

Skills

AI / MCP tool development · Client and workflow discovery · Prompt contracts and comparison · Technical communication · Product and engineering collaboration · Usability research · Workshop facilitation · Demonstrations and guided practice · Figma · Google Workspace · Jira / Confluence

Selected applied AI work

Prompt Compass | Independent creator | 2026

Built and released a local-first prompt analysis tool with structured checks, workflow routing and prompt comparison. Published a beta with installable packages and source downloads; later local evaluation examples inspect whether rewrites preserve requirements.

Experience

Coursera

Guided Project Instructor | 2024

- Created and taught ChatGPT 4o for Beginners: Create Social Media Content, a published guided project with learning objectives, scripts, demonstrations and practice activities.
- Revised assessment choices, application-based wording, task references and retry feedback in response to course review; documented the changes for further review.
- Produced original lesson slides and videos, connecting narrated demonstrations to learner tasks.

Arizona State University - Knowledge Enterprise

Instructional Designer | Apr 2022-Oct 2024

- Developed digital learning materials and workshops, incorporating accessibility improvements and inclusive learning practices.

Arizona State University - Learning Innovations

AI Analyst | Feb 2024-Oct 2024

- Designed and evaluated voice and chat flows, translating learner and staff needs into conversational prototypes and findings for project leaders.
- Proposed a learner-task workflow with mentor review of context and generated tasks.

Jonathan Kyle Hobson

Research, workflow design and education

FactorLab

UX Designer & Researcher (Contract) | Oct 2025-Present

- Design SmartTagIt web and mobile workflows in Figma, collaborating with product and engineering on interaction behavior and implementation constraints.
- Write and design question entry, waiting and recovery states for Flint; document flows, actions and rationale for engineering handoff.

Oak AI

Lead UX Researcher | Nov 2023-2025

- Evaluated navigation, labels and feedback in an early AI product; translated findings into concrete recommendations with the lead designer.
- Documented focused color roles and field-level error feedback, keeping proposed changes distinct from observed behavior.

KeepMake

UX Research Consultant | Jun 2023-Present

- Use heuristic reviews, usability work and participatory workshops to investigate friction and align stakeholders on scope.

Oppia Foundation

Volunteer | Sep 2025-Present

- Currently serve as UX Research Lead. Review lesson-player interactions and written feedback with designers and engineers, clarifying saved progress, exit decisions and recovery.

Arizona State University - Fulton School of Engineering

IT Specialist | Oct 2020-Dec 2022

- Supported campus system updates, hybrid transitions and accessibility-related digital platform work.

Education

MS User Experience (UX Research) | Arizona State University | 2024

BS Technical Communication (UX) | Arizona State University | 2023

BS Electronic Media | Northern Arizona University | 2014
