

Jonathan Kyle Hobson

Product Design | Mobile Workflows, Research & Engineering Handoff

Mesa, Arizona | JonathanKyleHobson@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio selected for Livefront](#)

Summary

Product designer and UX researcher who turns complex tasks into clear flows, Figma prototypes, and implementation guidance. Consulting and product work spans mobile AI interactions, insight widgets, usability evaluation, and research-led design revisions. Bring six years of Figma experience and a technical communication background to design decisions, client discussions, and engineering handoffs.

Skills

Figma (6 years) · Mobile interaction design · Interactive prototyping · User flows · Visual hierarchy · Reusable interface patterns · Usability evaluation · Research synthesis · Accessibility reviews · Client communication · Design presentations · Engineering handoff

Experience

FactorLab

UX Designer & Researcher (Contract) | Oct 2025-Present

- Design SmartTagIt web and mobile experiences, translating usability findings into Figma prototypes, interaction states, and engineering guidance.
- Defined Flint conversation entry, waiting, and recovery flows, including distinct next actions for connection loss and interrupted answers.
- Developed About Me insight widgets across summaries, recommendations, Simple 7, comparisons, and accomplishments; explored content density and information order.
- Walk developers through alternatives and annotated flows; refine recommendations as platform constraints and interpretation questions become clear.

Oak AI

Lead UX Researcher | 2023-2025

- Evaluated product navigation, visual hierarchy, and error feedback; translated findings into concrete recommendations and two navigation alternatives.
- Collaborated with the lead UX designer on mockups, usability follow-up, and handoff documentation connecting the problem to the proposed behavior.

Jonathan Kyle Hobson

Product Design | Experience continued

KeepMake

UX Research Consultant | Jun 2023-Present

- Evaluate product flows through heuristic reviews, prototypes, and usability work; help stakeholders translate findings into a manageable design scope.

Arizona State University - Learning Innovations

AI Analyst | Feb 2024-Oct 2024

- Designed and evaluated voice and chat flows, translating learner and staff needs into conversational prototypes and findings for project leaders.

Arizona State University - Knowledge Enterprise

Instructional Designer | Apr 2022-Oct 2024

- Developed digital learning materials and workshops, incorporating accessibility improvements and AI-supported content workflows for diverse learners.

Arizona State University

IT Specialist | Oct 2020-Dec 2022

- Supported campus system updates, hybrid transitions, and accessibility-related digital platform work.

Oppia Foundation

Volunteer; currently UX Research Lead | Sep 2025-Present

- Review lesson-player interactions with designers and engineers, including exit-dialog behavior and expectations around saved learner progress.

Selected portfolio

Flint: mobile question entry, waiting and recovery states with annotated engineering handoff. About Me: reusable feedback widgets and information hierarchy. Oak AI: navigation and login-feedback recommendations grounded in usability evaluation. The portfolio identifies design proposals and the limits of available release evidence.

Education

MS User Experience (UX Research) | Arizona State University | 2024

BS Technical Communication (UX) | Arizona State University | 2023

BS Electronic Media | Northern Arizona University | 2014
