UX Research | Product Decisions & Applied AI

Mesa, Arizona | JonathanKyleHobson@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio selected for Apollo.io](#)

Summary

UX researcher and product designer who connects user evidence to decisions a team can act on. Work spans survey design and analysis, qualitative synthesis, usability evaluation, Figma prototypes, and engineering handoff. Applied AI experience includes conversational-flow evaluation and a released prompt tool with later local regression examples. Bring a technical communication background to clear research reports and stakeholder discussions.

Methods and tools

Survey design · Quantitative and open-response analysis · Qualitative coding · Usability testing · Heuristic evaluation · Research synthesis · Study planning · Stakeholder presentations · Figma (6 years) · Interactive prototypes · Dovetail · Conversational AI · Prompt requirements and evaluation

Experience

Oak AI

Lead UX Researcher | 2023-2025

- Led creation, launch, and analysis of an audience survey combining quantitative questions and open responses; the March 14, 2025 report recorded 1,459 completed submissions.
- Connected reported barriers and requests for support to recommendations for a proposed Action Hub; kept audience self-report distinct from measured product adoption.
- Conducted desktop usability evaluation, developed navigation and feedback recommendations, and presented findings for product backlog discussion.
- Collaborated with the lead UX designer on mockups and later usability follow-up; used qualitative coding to examine privacy-community needs and audience fit.

FactorLab

UX Designer & Researcher (Contract) | Oct 2025-Present

- Translate usability findings into SmartTagIt web and mobile flows, Figma prototypes, reusable insight widgets, and engineering guidance.
- Defined Flint question entry, waiting, and recovery states; walk developers through annotated alternatives and revise as constraints become clear.

Jonathan Kyle Hobson

UX Research | Experience continued

KeepMake

UX Research Consultant | Jun 2023-Present

- Evaluate product flows through heuristic reviews, prototypes, and usability work; help stakeholders translate findings into a manageable design scope.

Arizona State University - Learning Innovations

AI Analyst | Feb 2024-Oct 2024

- Designed and evaluated voice and chat flows, translating learner and staff needs into conversational prototypes and findings for project leaders.

Arizona State University - Knowledge Enterprise

Instructional Designer | Apr 2022-Oct 2024

- Developed digital learning materials and workshops, incorporating accessibility improvements and AI-supported content workflows for diverse learners.

Oppia Foundation

Volunteer; currently UX Research Lead | Sep 2025-Present

- Review lesson-player interactions with designers and engineers, including exit-dialog behavior and expectations around saved learner progress.

Selected independent work

Prompt Compass | Independent creator | 2026

Built and released a local prompt tool for inspecting requirements and comparing versions. Later developer-authored regression examples examine whether a rewrite preserves required fields and review rules. Public release and later local evaluation are documented separately in the portfolio.

Education

MS User Experience (UX Research) | Arizona State University | 2024

BS Technical Communication (UX) | Arizona State University | 2023

BS Electronic Media | Northern Arizona University | 2014
