Portfolio: jonathankhobson.github.io/application-portfolios/virtualitics-product-designer

Summary

UX designer and researcher working on AI interfaces, conversational flows and the interaction details that make generated results understandable. At FactorLab, I design SmartTagIt workflows in Figma and document their behavior with product and engineering. My work combines research-led interface decisions, accessible feedback and independently built AI tools.

Skills

AI interaction design · Figma components and prototypes · Conversational flows · Design systems · Workflow mapping · Visual hierarchy · Accessibility · Error feedback and recovery · Usability research · Engineering handoff · Prompt analysis · AI-assisted prototyping

Experience

FactorLab

UX Designer & Researcher (Contract) | Oct 2025-Present

- Design SmartTagIt web and mobile workflows in Figma, working with the product lead and developers on interaction behavior, scope and implementation constraints.
- Design editable suggested questions, waiting feedback and distinct recovery actions for interrupted answers and lost connections in Flint.
- Connect conversational states in annotated Figma flows and document their intended behavior for engineering review.

Oak AI

Lead UX Researcher | Nov 2023-2025

- Evaluated navigation, labels, visual hierarchy and feedback in an early AI product; connected findings to concrete design recommendations.
- Developed sitemap alternatives, compared navigation labels and collaborated with the lead designer on mockups and shared header/footer refinements.
- Documented color roles and field-level error feedback, presenting visual alternatives with their rationale and remaining validation questions.

KeepMake

UX Research Consultant | Jun 2023-Present

- Use heuristic reviews, prototypes and participatory workshops to investigate friction and agree on study scope; supported leaving AI out of a first release to keep its core workflow focused.

Jonathan Kyle Hobson

Applied AI tools and learning

Arizona State University - Learning Innovations

AI Analyst | Feb 2024-Oct 2024

- Designed and evaluated voice and chat flows, translating learner and staff needs into conversational prototypes and findings for project leaders.
- Proposed a staged workflow for personalized learner tasks with mentor review of context and generated tasks.

Arizona State University - Knowledge Enterprise

Instructional Designer | Apr 2022-Oct 2024

- Developed digital learning materials and workshops, incorporating accessibility improvements and inclusive learning practices.

Prompt Compass

Independent Creator | 2026

- Built and released a public beta tool for structured prompt analysis, routing and version comparison.
- Developed later local regression fixtures for lost requirements and review conditions; distinguish heuristic checks from observed model behavior.

Oppia Foundation

Volunteer | Sep 2025-Present

- Currently serve as UX Research Lead. Review lesson-player interactions with designers and engineers, clarifying saved progress, exit decisions and recovery.

Education

MS User Experience (UX Research) | Arizona State University | 2024

BS Technical Communication (UX) | Arizona State University | 2023

BS Electronic Media | Northern Arizona University | 2014
