

Help people use AI with judgment

Practical teaching, workflow guidance
and careful review of AI output

AI Adoption Specialist · R0014520 · Remote, United States

Understand the task before introducing change

At ASU Knowledge Enterprise, I developed digital learning materials and workshops with accessibility improvements and AI-supported content workflows.

April 2022–October 2024

MS in User Experience · BS in Technical Communication

A practice sequence people can follow

ChatGPT 4o for Beginners: Create Social Media Content

TASK OBJECTIVE

coursera

Task 3

Goals

Iteratively Transform Content Using AI

- Use ChatGPT to create an initial draft and make iterative refinements.
- Practice refining drafts using different prompt techniques and feedback loops.
- Analyze how each iteration impacts content quality and alignment with goals.

Make the change visible in a lesson

 Craft a post about Visit Brew Bliss for a great coffee experience

 **Visit Brew Bliss for an Unforgettable Coffee Experience!** 

Whether you're a seasoned coffee connoisseur or just in need of your daily caffeine fix, Brew Bliss has something special for you. Our cozy, family-owned café offers a warm and welcoming atmosphere paired with expertly crafted coffee that will elevate your day. From rich, aromatic espressos to indulgent lattes, every sip at Brew Bliss is a step towards coffee nirvana. Come for the coffee, stay for the experience. We can't wait to brew up some bliss for you!

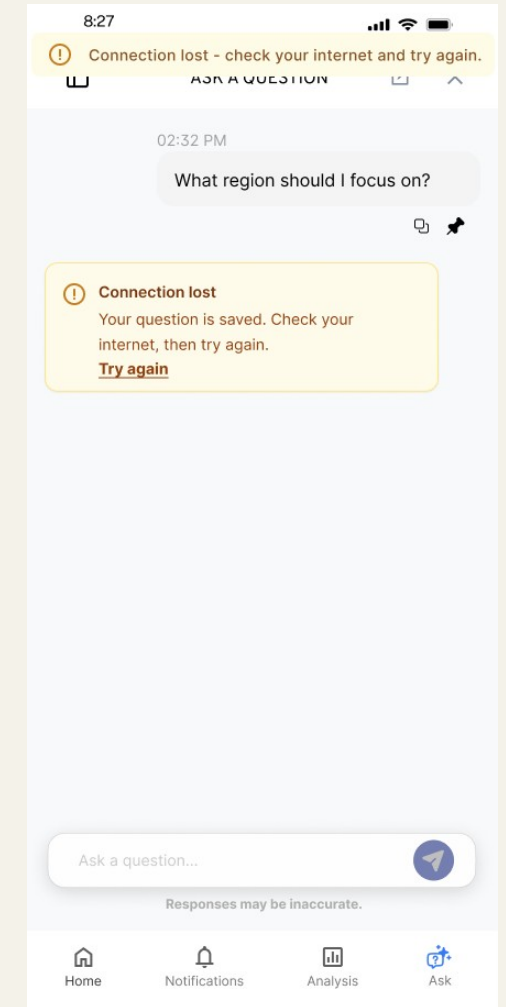

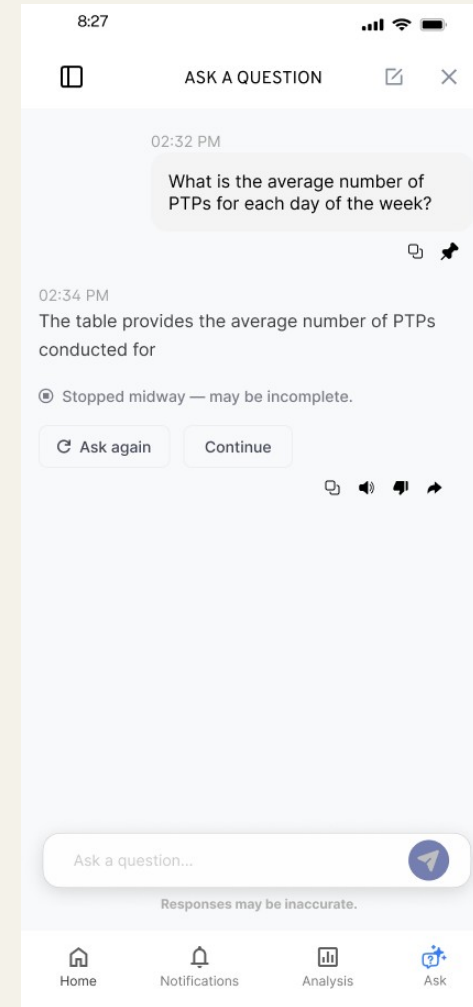

#BrewBliss #CoffeeLovers #CaféExperience #DrinkLocal

The next step is to make the request more specific and compare the result.

Recovery guidance has to describe the real state

An interrupted answer and a lost connection needed different messages and actions. I organized those states in Figma and annotated the behavior for engineering.

For AI adoption: explain what happened and what the person can do next.

A rewrite must preserve the requirement

ORIGINAL FIXTURE PROMPT

Return valid JSON only with fields category, article_id, confidence, and suggested_response. If confidence is below 0.7, set suggested_response to needs_review. Success: parser accepts the response.

SHORTER REWRITE

Return a clean structured answer with the best response for the user.

Expected winner: the original

The rewrite loses named fields, JSON-only output and the review condition.

Mentor review in a proposed workflow

I proposed staged generation of personalized learner tasks, with a mentor checking the context and the output.

Simplified reconstruction of my 2024 proposal. Deployment and time savings were not established.

REVIEW GATE 01

REVIEW GATE 02

One team. One task. Observable progress.

For R0014520, I would begin with one employee task and agree on the workflow, review responsibilities and signs of readiness.

Observe the current task and record where people need help.

Build one worked example, practice task and short reference aid.

Check accuracy, accessibility and required human review with the team.

Compare repeat-task performance and use feedback to revise guidance.

Proposed approach; no Blackbaud rollout or measured adoption outcome is claimed.
