Summary

UX researcher and AI educator who turns complex tasks into clear guidance, learning materials and reviewable product decisions. Experience combines ASU instructional design and AI analysis, a published Coursera project and current software UX work. Bring practical demonstrations, stakeholder feedback and human review of AI output to adoption work.

Skills

AI workflow analysis · Prompt design and comparison · Training materials · Practical demonstrations · Technical communication · Stakeholder interviews · Research synthesis · Accessibility review · Figma prototypes · AI-assisted drafting with human review

Learning and enablement experience

Arizona State University - Knowledge Enterprise

Instructional Designer | Apr 2022–Oct 2024

- Developed digital learning materials and workshops, bringing accessibility improvements and inclusive communication to instructional content.
- Worked with AI-supported content workflows to support the development of learning materials.

Coursera

Guided Project Instructor | 2024

- Created and taught ChatGPT 4o for Beginners: Create Social Media Content, a published project for beginners.
- Structured a practical sequence: define the content goal, write an initial prompt, compare the result, refine the instruction, and organize the work into a content calendar.
- Produced original lesson demonstrations and revised quiz content during the course review process. The project has more than 4,700 enrollments as of September 2026.

Current product and stakeholder work

FactorLab

UX Designer & Researcher (Contract) | Oct 2025–Present

- Design SmartTagIt web and mobile workflows, turning product questions into Figma alternatives and annotated engineering guidance.
- Defined Flint assistant states with distinct messages and recovery actions for an interrupted answer and a lost connection, documenting the conditions for engineering.

Jonathan Kyle Hobson

AI Adoption | Additional experience and education

Additional relevant experience

Arizona State University - Learning Innovations

AI Analyst | Feb 2024–Oct 2024

- Designed and evaluated voice and chat flows, translating learner and staff needs into conversational prototypes and findings for project leaders.
- Proposed a staged learner-support workflow with mentor checkpoints to validate context and review generated tasks before advice reached the learner.

Oak AI

Lead UX Researcher | 2023–2025

- Conducted a desktop heuristic evaluation and developed navigation alternatives with the lead UX designer.
- Connected findings to specific recommendations, including consistent destinations, field-level login feedback, and defined color roles.

Oppia Foundation

UX Research Lead (Volunteer) | Involved since 2025

- Review learner-facing product decisions, including how saved progress changes the explanation and action a learner needs when leaving a lesson.

Arizona State University - Fulton School of Engineering

IT Specialist | Oct 2020–Dec 2022

Independent work

Prompt Compass

Creator - Public beta | 2026

- Built and released a local tool for diagnosing, improving and comparing prompts. Designed examples that check whether a rewrite preserves required output fields and review conditions.

Education

MS User Experience - UX Research, Arizona State University, May 2024

BS Technical Communication - User Experience, Arizona State University, May 2023

BS Electronic Media, Northern Arizona University, May 2014
