Portfolio: jonathankhobson.github.io/application-portfolios/horace-mann-development-enablement

Summary

Instructional designer and UX researcher who makes technical workflows easier to learn and review. My work combines ASU digital learning, a published Coursera Guided Project, and Prompt Compass, a released local tool for inspecting prompt requirements. I write demonstrations and guidance, revise assessments through feedback, and document product behavior for engineering.

Skills

Technical training · Instructional design · Technical documentation · AI workflow analysis · Prompt evaluation · Demonstrations and practice · Assessment revision · UX research · Figma · Google Workspace · GitHub · Local tool development · Engineering handoff

Experience

Arizona State University — Knowledge Enterprise

Instructional Designer | Apr 2022–Oct 2024

- Developed digital learning materials and workshops, incorporating accessibility improvements and inclusive learning practices.

Coursera

Guided Project Instructor | 2024

- Created and taught ChatGPT 4o for Beginners: Create Social Media Content, a published Guided Project with learning objectives, scripts, demonstrations and practice activities.
- Revised assessment choices, application-based wording, task references and retry feedback in response to course review; documented the changes for further review.
- Produced original lesson slides and videos, connecting narrated demonstrations to learner tasks.

Arizona State University — Learning Innovations

AI Analyst | Feb 2024–Oct 2024

- Designed and evaluated voice and chat flows, translating learner and staff needs into conversational prototypes and findings for project leaders.
- Proposed a learner-task workflow with mentor review of context and generated tasks.

Jonathan Kyle Hobson

Product research, workflow design and education

Prompt Compass

Independent Creator | 2026

- Built and released a public beta of a local prompt-analysis tool with structured checks, workflow routing and version comparison.
- Developed later local evaluation examples that inspect whether rewrites preserve requirements; documented tool behavior and usage.

FactorLab

UX Designer & Researcher (Contract) | Oct 2025-Present

- Design SmartTagIt web and mobile workflows in Figma, collaborating with product and engineering on interaction behavior and implementation constraints.
- Write and design question entry, waiting and recovery states for Flint; document flows, actions and rationale for engineering handoff.

Oak AI

Lead UX Researcher | Nov 2023–2025

- Evaluated navigation, labels and feedback in an early AI product; translated findings into concrete recommendations with the lead designer.
- Documented focused color roles and field-level error feedback, keeping proposed changes distinct from observed behavior.

KeepMake

UX Research Consultant | Jun 2023-Present

- Use heuristic reviews, usability work and participatory workshops to investigate friction and align stakeholders on scope.

Oppia Foundation

Volunteer | Sep 2025-Present

- Currently serve as UX Research Lead. Review lesson-player interactions and written feedback with designers and engineers, clarifying saved progress, exit decisions and recovery.

Education

MS User Experience (UX Research) | Arizona State University | 2024

BS Technical Communication (UX) | Arizona State University | 2023

BS Electronic Media | Northern Arizona University | 2014
