Summary

Instructional designer and UX researcher with experience developing digital learning materials, teaching software skills, and explaining product behavior. Bring technical communication and accessibility review to learning activities that connect a clear goal with guided practice. Published Coursera instructor with current software design work at FactorLab.

Skills

Learning objectives · Guided practice · Digital learning content · Technical communication · Visual explanations · Accessibility review · Usability evaluation · Research synthesis · Figma prototypes · AI-assisted content workflows

Selected learning experience

Arizona State University - Knowledge Enterprise

Instructional Designer | Apr 2022–Oct 2024

- Developed digital learning materials and workshops, bringing accessibility improvements and inclusive communication to instructional content.
- Worked with AI-supported content workflows to support the development of learning materials.

Coursera

Guided Project Instructor | 2024

- Created and taught ChatGPT 4o for Beginners: Create Social Media Content, a published project for beginners.
- Built a guided sequence around a familiar task: write an initial prompt, compare the result with the goal, refine the instruction, and organize the final work into a content calendar.
- Produced original lesson demonstrations that make the revision process visible. The project has more than 4,700 enrollments as of September 2026.

Current software experience

FactorLab

UX Designer & Researcher (Contract) | Oct 2025–Present

- Design SmartTagIt web and mobile workflows and translate product questions into Figma alternatives and annotated engineering guidance.
- Defined Flint AI assistant states with distinct messages and recovery actions for an interrupted answer and a lost connection.

Jonathan Kyle Hobson

Instructional Design | Research and education background

Additional relevant experience

Arizona State University - Learning Innovations

AI Analyst | Feb 2024–Oct 2024

- Designed and evaluated voice and chat flows, translating learner and staff needs into conversational prototypes and findings for project leaders.
- Proposed a learner-support workflow with mentor checkpoints to validate context and review generated tasks before advice reached the learner.

Oak AI

Lead UX Researcher | 2023–2025

- Conducted a desktop heuristic evaluation and developed navigation alternatives with the lead UX designer.
- Connected findings to specific recommendations, including consistent destinations, field-level login feedback, and defined color roles.

Oppia Foundation

UX Research Lead (Volunteer) | Involved since 2025

- Review learner-facing product decisions, including how saved progress changes the explanation and action a learner needs when leaving a lesson.

Independent work

Prompt Compass

Creator - Public beta | 2026

- Built and released a local tool for diagnosing, improving and comparing prompts, with examples that check whether a rewrite preserves required output fields and review conditions.

Education

MS User Experience - UX Research, Arizona State University, May 2024

BS Technical Communication - User Experience, Arizona State University, May 2023

BS Electronic Media, Northern Arizona University, May 2014
