

Clear instructions. Attentive facilitation.

Teaching, conversational AI
and live group experience

Hydrus - Session Director — English (US) · U.S. remote

Teaching and live facilitation

At ASU, I developed learning materials and workshops. For Coursera, I created original recorded demonstrations for a beginner AI project.

I also prepare and run 3–4-hour tabletop role-playing sessions for mixed-experience groups, online and in person.

A practice sequence people can follow

ChatGPT 4o for Beginners: Create Social Media Content

TASK OBJECTIVE

coursera

Task 3

Goals

Iteratively Transform Content Using AI

- Use ChatGPT to create an initial draft and make iterative refinements.
- Practice refining drafts using different prompt techniques and feedback loops.
- Analyze how each iteration impacts content quality and alignment with goals.

Feedback tied to a specific task

 Craft a post about Visit Brew Bliss for a great coffee experience 

 **Visit Brew Bliss for an Unforgettable Coffee Experience!** 

Whether you're a seasoned coffee connoisseur or just in need of your daily caffeine fix, Brew Bliss has something special for you. Our cozy, family-owned café offers a warm and welcoming atmosphere paired with expertly crafted coffee that will elevate your day. From rich, aromatic espressos to indulgent lattes, every sip at Brew Bliss is a step towards coffee nirvana. Come for the coffee, stay for the experience. We can't wait to brew up some bliss for you!

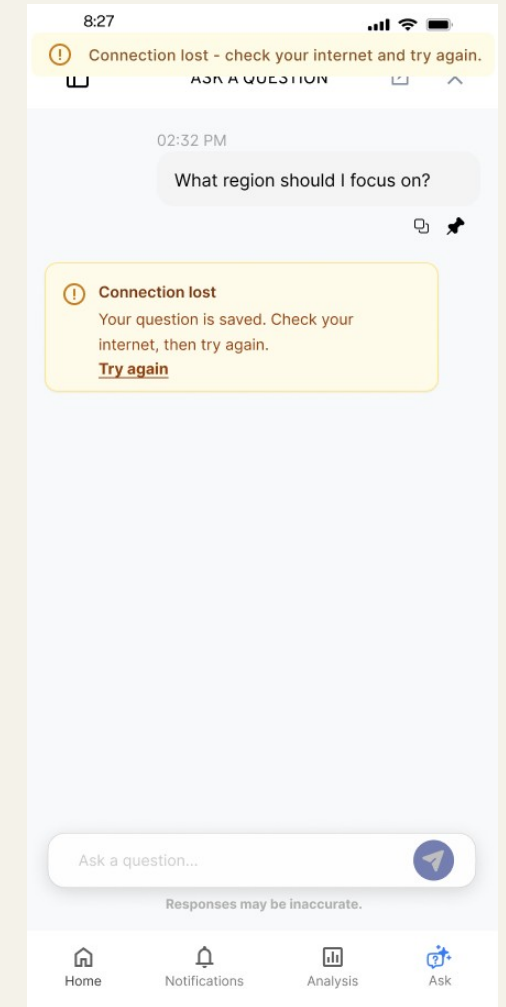

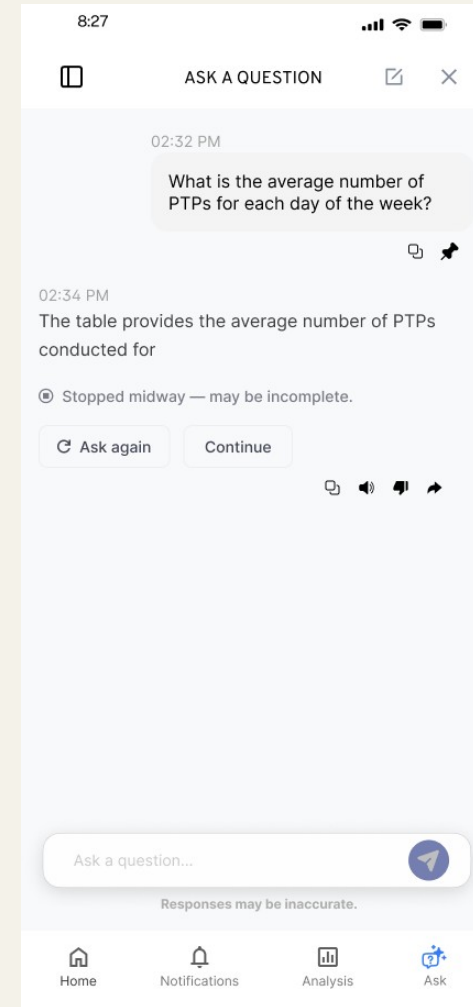

#BrewBliss #CoffeeLovers #CaféExperience #DrinkLocal

The learner makes the request more specific, then compares the resulting draft.

Different failures need different instructions

An interrupted answer and a lost connection needed different messages and actions. I organized those states in Figma and annotated the behavior for engineering.

For a live session, the connection is practical: identify the issue before asking someone to repeat a task.

Human review in a proposed AI workflow

I proposed staged generation of personalized learner tasks, with a mentor checking the context and the output.

Simplified reconstruction of my 2024 proposal. Deployment and time savings were not established.

REVIEW GATE 01

REVIEW GATE 02

A clear brief and focused feedback

I would begin with your calibration process and approved recording requirements.

Brief the participant and confirm the task is understood.

Coach one specific adjustment while preserving natural delivery.

Pause to check a technical issue against the project requirements.

Log the issue, repeat decision and any question for the lead.

Proposed approach; Welo's calibration, equipment and procedures would guide the work.
