

Learning for Grow With Trees

Instructional design, mobile workflows
and AI-assisted web content

Contract Instructional Designer

Learning design grounded in the task

At ASU Knowledge Enterprise, I developed digital learning materials and workshops with accessibility improvements and AI-supported content workflows.

April 2022–October 2024

MS in User Experience · BS in Technical Communication

A practical sequence for beginners

ChatGPT 4o for Beginners: Create Social Media Content

TASK OBJECTIVE

coursera

Task 3

Goals

Iteratively Transform Content Using AI

- Use ChatGPT to create an initial draft and make iterative refinements.
- Practice refining drafts using different prompt techniques and feedback loops.
- Analyze how each iteration impacts content quality and alignment with goals.

A first attempt gives learners something to revise

 Craft a post about Visit Brew Bliss for a great coffee experience

 **Visit Brew Bliss for an Unforgettable Coffee Experience!** 

Whether you're a seasoned coffee connoisseur or just in need of your daily caffeine fix, Brew Bliss has something special for you. Our cozy, family-owned café offers a warm and welcoming atmosphere paired with expertly crafted coffee that will elevate your day. From rich, aromatic espressos to indulgent lattes, every sip at Brew Bliss is a step towards coffee nirvana. Come for the coffee, stay for the experience. We can't wait to brew up some bliss for you!

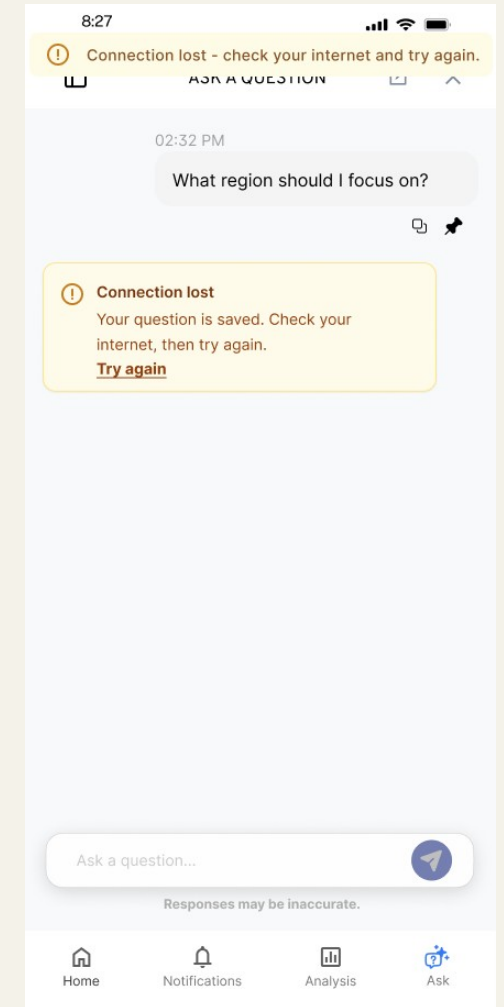

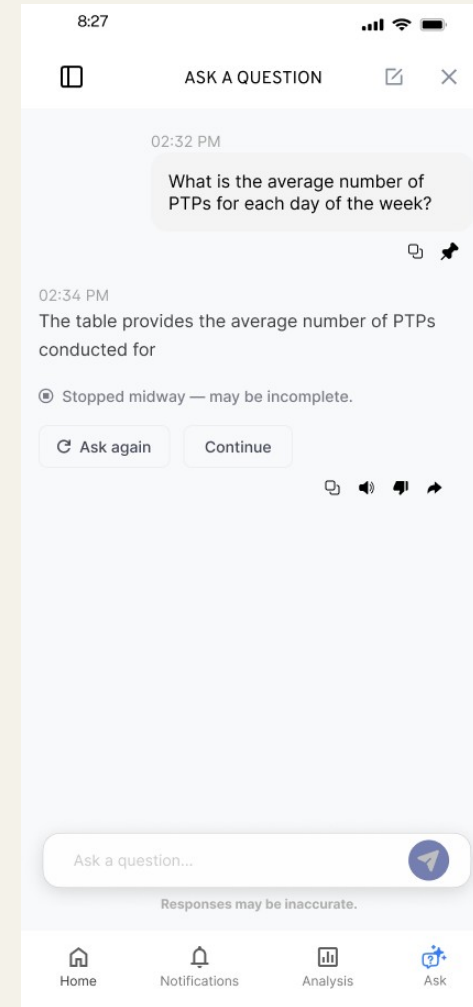

#BrewBliss #CoffeeLovers #CaféExperience #DrinkLocal

The next step is to make the request more specific and compare the result.

Mobile guidance needs a clear recovery path

An interrupted answer and a lost connection needed different messages and actions. I organized those states in Figma and annotated the behavior for engineering.

Relevant to mobile learning: give people a clear next step when the expected flow breaks.

A rewrite must preserve the requirement

ORIGINAL FIXTURE PROMPT

Return valid JSON only with fields category, article_id, confidence, and suggested_response. If confidence is below 0.7, set suggested_response to needs_review. Success: parser accepts the response.

SHORTER REWRITE

Return a clean structured answer with the best response for the user.

Expected winner: the original

The rewrite loses named fields, JSON-only output and the review condition.

Web content with editable source

I use Codex and GitHub to build and maintain custom HTML/CSS portfolio pages, alongside local AI tools.

The workflow includes desktop and mobile review, keyboard focus, source-image viewing, and download checks.

Applied AI portfolio

UX Design UX Research **Applied AI**

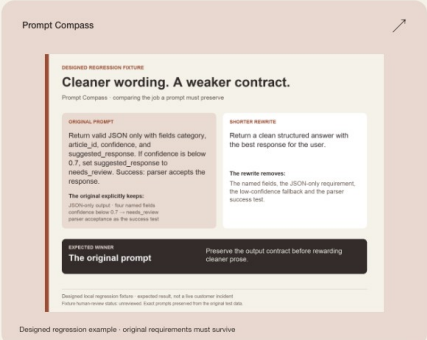

• APPLIED AI - WORKFLOW DESIGN & ENABLEMENT

Good AI work starts *with a clear task.*

I'm Kyle. I turn open-ended AI requests into clear workflows, testable instructions, and learning experiences people can use. My work connects product research, prompt engineering, and the judgment of the person using the result.

Prompt + research workflows

Build a short practice module

I would begin with the field task a utility professional needs to perform and the evidence that they understood it.

Define the task and review source material with a subject expert.

Pair an approved example with a short practice decision.

Test the learning flow on a phone and review the feedback.

Agree on SCORM packaging and LMS acceptance requirements.

Proposed approach. SCORM packaging and LMS validation remain a development area.

Contract Instructional Designer

Based in Mesa, Arizona. Available for U.S. remote work.
Authorized to work without sponsorship. Available ASAP.
