

Jonathan Kyle Hobson

Product Design | Reusable Patterns & Human-AI Interaction

Mesa, Arizona | JonathanKyleHobson@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio selected for Coinbase](#)

Summary

Product designer and UX researcher who turns complex workflows into reusable interface patterns, Figma prototypes, and implementation guidance. Experience includes AI conversation states, insight widgets, research-led design revisions, and a released prompt tool. Bring six years of Figma use and a technical communication background to the details that help a design and engineering team build consistently.

Skills

Figma (6 years) · Interactive prototyping · Reusable interface patterns · Component states · User flows · Visual hierarchy · Research synthesis · Usability evaluation · Accessibility reviews · Engineering handoff · AI workflow design · Prompt requirements and evaluation

Experience

FactorLab

UX Designer & Researcher (Contract) | Oct 2025-Present

- Design SmartTagIt web and mobile experiences, translating usability findings into Figma prototypes, consistent interface patterns, and engineering guidance.
- Developed About Me insight widgets across five groups: summaries, recommendations, Simple 7, comparisons, and accomplishments; explored content density and information order.
- Defined Flint conversation entry, waiting, and recovery states, including different actions for connection loss and interrupted answers.
- Walk developers through design alternatives and annotated flows; refine recommendations as implementation constraints and interpretation questions become clear.

Oak AI

Lead UX Researcher | 2023-2025

- Connected usability evaluation and user research with onboarding and navigation design, turning findings into wireframes, prototypes, and prioritized recommendations.
- Refined navigation cues, contrast, and error feedback through design iterations; collaborated with engineering on implementation and user testing.

Jonathan Kyle Hobson

Product Design | Experience continued

KeepMake

UX Research Consultant | Jun 2023-Present

- Evaluate product flows through heuristic reviews, prototypes, and usability work; help stakeholders translate findings into a manageable design scope.

Arizona State University - Learning Innovations

AI Analyst | Feb 2024-Oct 2024

- Designed and evaluated voice and chat flows, translating learner and staff needs into conversational prototypes and findings for project leaders.
- Proposed a staged ASU for Life prompt workflow for personalized learner tasks, including mentor review of context and generated output.

Arizona State University - Knowledge Enterprise

Instructional Designer | Apr 2022-Oct 2024

- Developed digital learning materials and workshops, incorporating accessibility improvements and AI-supported content workflows for diverse learners.

Oppia Foundation

Volunteer; currently UX Research Lead | Sep 2025-Present

- Review lesson-player interactions with designers and engineers, including exit-dialog behavior and what learners can expect to happen to saved progress.

Selected independent work

Prompt Compass | Independent creator | 2026

Built and released a local prompt tool that helps an AI assistant inspect requirements and compare versions. Later local regression examples examine whether a rewrite preserves required fields and review rules; these developer tests are separate from the public beta release.

Education

MS User Experience (UX Research) | Arizona State University | 2024

BS Technical Communication (UX) | Arizona State University | 2023

BS Electronic Media | Northern Arizona University | 2014
