Summary

UX researcher, AI educator and independent tool builder. Background includes 3+ years of recent full-time agency or consulting work, ASU instructional design and AI analysis, and a published Coursera guided project. Connect technical requirements with practical demonstrations, clear recovery guidance and human review of AI output.

Skills

AI workflow analysis · Prompt design and comparison · Local AI tools · Technical communication · Practical demonstrations · Training materials · Stakeholder interviews · Research synthesis · Accessibility review · Figma prototypes

AI builds and workflow experience

Prompt Compass

Creator - Public beta | 2026

- Built and released a local tool for diagnosing, improving, comparing and reusing prompts.
- Designed a regression example that checks whether a rewrite retains required JSON fields and a confidence-based human review condition. The public beta and example are inspectable.

FactorLab

UX Designer & Researcher (Contract) | Oct 2025–Present

- Design SmartTagIt web and mobile workflows, turning product questions into Figma alternatives and annotated engineering guidance.
- Defined Flint assistant states with distinct messages and recovery actions for an interrupted answer and a lost connection, documenting the conditions for engineering.

Arizona State University - Learning Innovations

AI Analyst | Feb 2024–Oct 2024

- Designed and evaluated voice and chat flows, translating learner and staff needs into conversational prototypes and findings for project leaders.
- Proposed a staged learner-support workflow with mentor checkpoints to validate context and review generated tasks before advice reached the learner.

Jonathan Kyle Hobson

AI Enablement | Learning and consulting experience

Learning and stakeholder experience

Arizona State University - Knowledge Enterprise

Instructional Designer | Apr 2022–Oct 2024

- Developed digital learning materials and workshops, bringing accessibility improvements and inclusive communication to instructional content.
- Worked with AI-supported content workflows to support the development of learning materials.

Coursera

Guided Project Instructor | 2024

- Created and taught ChatGPT 4o for Beginners: Create Social Media Content. Produced original demonstrations and revised quiz content through the course review process.
- Structured a practical sequence of defining a goal, writing a prompt, comparing the output and refining the instruction. The published project has 4,700+ enrollments as of September 2026.

Oak AI

Lead UX Researcher | 2023–2025

- Conducted a desktop heuristic evaluation and developed navigation alternatives with the lead UX designer.
- Connected findings to recommendations for consistent destinations, field-level login feedback and defined color roles.

Arizona State University - Fulton School of Engineering

IT Specialist | Oct 2020–Dec 2022

Education

MS User Experience - UX Research, Arizona State University, May 2024

BS Technical Communication - User Experience, Arizona State University, May 2023

BS Electronic Media, Northern Arizona University, May 2014
