Portfolio: jonathankhobson.github.io/application-portfolios/arkestro-ai-enablement

Summary

Applied AI practitioner and UX researcher who builds inspectable tools and teaches people to use AI. Experience includes conversational analysis at Arizona State University, independent prompt and evidence-retrieval tools, and a published Coursera Guided Project. I connect the task, its constraints and the person reviewing the result, then make the next step concrete.

Skills

AI workflow analysis · Prompt requirements and version comparison · Local tool development · Source-aware retrieval · Conversational prototyping · Instructional materials and demonstrations · Workshop facilitation · Usability research · Technical communication · Figma · Cross-functional collaboration

Applied AI and teaching

Arizona State University — Learning Innovations

AI Analyst | Feb 2024–Oct 2024

- Designed and evaluated voice and chat flows, translating learner and staff needs into conversational prototypes and findings for project leaders.
- Proposed a staged workflow for personalized learner tasks with mentor review of context and generated tasks.

Independent AI tools

Creator — Prompt Compass and Research Compass | 2026

- Built and released a public beta of Prompt Compass for structured prompt analysis, workflow routing and version comparison; designed later local checks for lost output requirements.
- Built an internal research tool with ten read-only tools for retrieving evidence, retaining source references and identifying coverage gaps. Team adoption and productivity gains are not established.

Coursera

Guided Project Instructor | 2024

- Created and taught ChatGPT 4o for Beginners: Create Social Media Content, a published one-hour Guided Project with original demonstrations of prompting, revision and comparison.

Jonathan Kyle Hobson

Applied AI | Research and learning experience

FactorLab

UX Designer & Researcher (Contract) | Oct 2025–Present

- Partner with developers on SmartTagIt web and mobile workflows, translating heuristic findings and stakeholder feedback into Figma mockups and engineering decisions.
- Investigate conversation entry, incomplete AI responses and recovery; document assumptions and technical constraints before recommending changes.

Arizona State University — Knowledge Enterprise

Instructional Designer | Apr 2022–Oct 2024

- Developed digital learning materials and workshops, incorporating accessibility improvements, inclusive learning practices and AI-supported content workflows.

Oak AI

Lead UX Researcher | 2023–2025

- Led survey design, launch and analysis for an audience study; conducted heuristic evaluation and usability work to inform navigation, labeling and recovery recommendations.

KeepMake

UX Research Consultant | Jun 2023–Present

- Use heuristic reviews, prototypes, usability work and participatory workshops to investigate friction and clarify the next research question.

Oppia Foundation

Volunteer | Sep 2025–Present

- Currently serve as UX Research Lead. Review lesson-player interactions with designers and engineers, clarifying saved progress, exit decisions and recovery.

Education

MS User Experience (UX Research) | Arizona State University | 2024

BS Technical Communication (UX) | Arizona State University | 2023

BS Electronic Media | Northern Arizona University | 2014
