

Jonathan Kyle Hobson

Game Master and Facilitator

Mesa, Arizona | JonathanKyleHobson@gmail.com

[Portfolio for Bigsby](#) | [GM portfolio](#) | [StartPlaying profile](#)

Profile

Game master creating original adventures, player handouts, and persistent campaign worlds. Bring learning design and community activity experience to explaining rules, preparing clear first steps, and helping people participate. Seeking remote contract sessions with Bigsby Games; available to start as soon as possible.

Selected GM work

Peasants to Kings

Built a long-running homebrew campaign with linked character arcs, faction records, maps, and session recaps. Maintain a shared body of lore so choices and consequences carry across the campaign.

Peril to Profit

Created a Daggerheart one-shot designed for six players and three to four hours, with pregenerated characters, handouts, maps, and pacing guidance. The original uses a physical tower mechanic; a remote version would need an agreed online adaptation.

Echoes of Stargate

Prepared mission briefings, objectives, character roles, and maps for a personal fan campaign. Organize the scenario into references players can use to understand the mission and make their next choice.

Systems and table practice

Dungeons & Dragons 5e, Daggerheart, homebrew settings, character hooks, campaign continuity, rules explanation, and player onboarding. Online tools: Discord, Owlbear Rodeo, and Zoom.

Relevant professional experience

Arizona State University Knowledge Enterprise

Instructional Designer | Apr 2022–Oct 2024

Developed digital learning materials and workshops, bringing accessibility and clear explanations to unfamiliar subjects.

Atria Park of Sierra Pointe

Engage Life Coordinator | 2017–2019

Coordinated activities and outings for older adults and provided technology tutoring.

FactorLab

UX Designer and Researcher, Contract | Oct 2025–Present

Translate research and usability findings into clearer web and mobile interactions and implementation guidance for SmartTagIt.

Education

MS User Experience, UX Research — Arizona State University, 2024

BS Technical Communication, UX — Arizona State University, 2023

BS Electronic Media — Northern Arizona University, 2014
