Portfolio: jonathankhobson.github.io/application-portfolios/bask-ux-product-researcher

Summary

UX researcher with experience in AI products and digital learning. Combine surveys, qualitative coding, and usability work to examine what people need, how they interpret a response, and where a workflow becomes unclear. Work with product, design, and engineering to turn evidence into research questions, prototypes, and reviewable recommendations.

Skills

Mixed methods research · Survey design and analysis · User interviews · Usability testing · Qualitative coding · Audience research · Research planning · Participant recruitment · Stakeholder presentations · Dovetail · Qualtrics · Figma

Experience

FactorLab

UX Designer & Researcher (Contract) | Oct 2025–Present

- Investigate usability breakdowns across SmartTagIt's web and mobile product, connecting heuristic findings and stakeholder feedback with Figma prototypes and engineering decisions.
- Clarify questions about conversation entry, incomplete AI responses, and recovery; document assumptions, alternatives, and technical constraints before recommending changes.

Oak AI

Lead UX Researcher | 2023–2025

- Led survey design, launch, and quantitative and open-response analysis for an audience study with 1,459 completed submissions (March 14, 2025 snapshot); translated reported barriers into recommendations for clearer next actions.
- Coded privacy-community observations in Dovetail and synthesized concerns about control, transparency, and accountability; used the findings to question audience assumptions and guide the next research investment.
- Conducted desktop heuristic evaluation and usability testing; partnered with design and engineering to prioritize navigation, labeling, and error-recovery improvements.
- Created screeners, study plans, participant-recruitment workflows, and shared research records; presented findings and recommendations so collaborators could challenge the interpretation and plan follow-up work.

Jonathan Kyle Hobson

UX Research | Experience continued

Oppia Foundation

Volunteer | Sep 2025–Present

- Currently serve as UX Research Lead. Review lesson-player interactions with designers and engineers, clarifying questions about saved progress, exit decisions, and recovery before refining the experience.
- Created and shared heuristic-evaluation resources for cross-functional product review.

KeepMake

UX Research Consultant | Jun 2023–Present

- Use heuristic reviews, prototypes, and usability work to investigate product friction and help stakeholders define the next learning objective.
- Advised on a manageable activation study, separating usability questions from adoption goals and proposing onboarding and repeat-use signals for a volunteer team.

Arizona State University — Learning Innovations

AI Analyst | Feb 2024–Oct 2024

- Designed and evaluated voice and chat flows, translating learner and staff needs into conversational prototypes and findings for project leaders.
- Proposed an ASU for Life prompt workflow with mentor checkpoints to review learner context, assess output accuracy, and refine recommended tasks.

Arizona State University — Knowledge Enterprise

Instructional Designer | Apr 2022–Oct 2024

- Developed digital learning materials and workshops, incorporating accessibility improvements and AI-supported content workflows for diverse learners.

Selected project

Oppia Research Compass | Independent research tool

Built a local, read-only tool for retrieving historical research with source references and helping frame new research questions.

Education

MS User Experience (UX Research) | Arizona State University | 2024

BS Technical Communication (UX) | Arizona State University | 2023

BS Electronic Media | Northern Arizona University | 2014
