Portfolio: jonathankhobson.github.io/application-portfolios/match-group-ux-researcher

Summary

UX researcher who connects survey patterns and qualitative evidence to product decisions. Investigate audience needs, barriers to action, and usability questions through mixed methods. Turn findings into clear recommendations and focused follow-up studies with product, design, and engineering teams. Experience spans AI products, digital learning, and community research.

Skills

Mixed methods research · Survey design and analysis · User interviews · Usability testing · Qualitative coding · Audience research · Research planning · Participant recruitment · Stakeholder presentations · Dovetail · Qualtrics · Figma

Experience

FactorLab

UX Designer & Researcher (Contract) | Oct 2025–Present

- Investigate usability breakdowns across SmartTagIt's web and mobile product, connecting heuristic findings and stakeholder feedback with Figma prototypes and engineering decisions.
- Clarify questions about conversation entry, incomplete AI responses, and recovery; document assumptions, alternatives, and technical constraints before recommending changes.

Oak AI

Lead UX Researcher | 2023–2025

- Led survey design, launch, and quantitative and open-response analysis for an audience study with 1,459 completed submissions (March 14, 2025 snapshot); translated reported barriers into recommendations for clearer next actions.
- Coded privacy-community observations in Dovetail and synthesized concerns about control, transparency, and accountability; used the findings to question audience assumptions and guide the next research investment.
- Conducted desktop heuristic evaluation and usability testing; partnered with design and engineering to prioritize navigation, labeling, and error-recovery improvements.
- Created screeners, study plans, participant-recruitment workflows, and shared research records; presented findings and recommendations so collaborators could challenge the interpretation and plan follow-up work.

Jonathan Kyle Hobson

UX Research | Experience continued

Oppia Foundation

Volunteer | Sep 2025–Present

- Currently serve as UX Research Lead. Review lesson-player interactions with designers and engineers, clarifying questions about saved progress, exit decisions, and recovery before refining the experience.
- Created and shared heuristic-evaluation resources for cross-functional product review.

KeepMake

UX Research Consultant | Jun 2023–Present

- Use heuristic reviews, prototypes, and usability work to investigate product friction and help stakeholders define the next learning objective.
- Advised on a manageable activation study, separating usability questions from adoption goals and proposing onboarding and repeat-use signals for a volunteer team.

Arizona State University — Learning Innovations

AI Analyst | Feb 2024–Oct 2024

- Designed and evaluated voice and chat flows, translating learner and staff needs into conversational prototypes and findings for project leaders.
- Proposed an ASU for Life prompt workflow with mentor checkpoints to review learner context, assess output accuracy, and refine recommended tasks.

Arizona State University — Knowledge Enterprise

Instructional Designer | Apr 2022–Oct 2024

- Developed digital learning materials and workshops, incorporating accessibility improvements and AI-supported content workflows for diverse learners.

Selected project

Oppia Research Compass | Independent research tool

Built a local, read-only tool for retrieving historical research with source references and helping frame new research questions.

Education

MS User Experience (UX Research) | Arizona State University | 2024

BS Technical Communication (UX) | Arizona State University | 2023

BS Electronic Media | Northern Arizona University | 2014
